SUMMARY

Full-Stack Developer and MSc Computer Science student with five internships across web development, WordPress, database engineering and API-driven applications. Led the frontend team of a 7-person project (Guidely) built with Next.js 14 and a Laravel 11 API, delivered in 37 days. Builds AI-powered features with the OpenAI API and Hugging Face Transformers. Skilled in JavaScript, TypeScript, React, Node.js, PHP, Python and MySQL.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, PHP, Java, C, C++, SQL, HTML, CSS

Frontend: React, Next.js, Vue.js, Svelte, Tailwind CSS, Bootstrap, React Query, Responsive Design

Backend: Node.js, Express.js, Laravel, Flask, REST APIs, JWT Authentication, AJAX

Databases: MySQL, PostgreSQL, MongoDB, SQLite

AI & Data: OpenAI API, Hugging Face Transformers, NLP, Power BI, Chart.js, Excel

Tools & Platforms: Git, GitHub, Docker, WordPress, Flutter (Dart)

EXPERIENCE

Web/Application Developer Intern | Universal Phoenix Group, LLC (Menfes Interactive) | Remote — Aug 2026 – Present

- Develop web and application features in a remote internship focused on modern web development, scalable architecture and API-driven system design.
- Collaborate with the company supervisor on programming assignments, layout and UI development, and iterative revisions based on feedback.

Frontend Team Lead (Guidely Project) | TechTalks Internship Program | Remote — Apr 2026 – May 2026

- Led the frontend team of a 7-member cross-functional group building Guidely, a university-major guidance platform for Lebanese students, using Next.js 14 (App Router), Tailwind CSS and React Query.
- Owned the design system and component architecture, and built the admin panel layout and CRUD interfaces for content management.
- Coordinated parallel frontend and backend workstreams against a shared API contract with the Laravel backend team to meet a 37-day delivery timeline.
- Certified by TechTalks for proficiency in modern web development, scalable architecture and API-driven system design.

WordPress Developer Intern | InternGrub — Apr 2025 – Jun 2025

- Built and customized WordPress websites for client projects.
- Designed responsive layouts using HTML, CSS and Bootstrap.
- Integrated plugins and optimized site performance.

Database Engineer Intern | M365Connect — Feb 2025 – Mar 2025

- Assisted in designing and managing MySQL databases.
- Wrote SQL queries to support backend applications.
- Participated in database optimization and data migration tasks.

Web Developer Intern | CodiTech Solutions — Feb 2024 – Aug 2024

- Developed responsive web pages using HTML, CSS, JavaScript and Bootstrap.
- Worked with PHP and MySQL to build and improve backend features.
- Assisted in debugging and performance optimization of frontend and backend features.

PROJECTS

Guidely – University Major Guidance Platform | Team project (7 members) — 2026

- Full-stack platform helping Lebanese students choose university majors using localized market data, a two-level scoring and recommendation engine, and mentor matching.
- Stack: Next.js 14, Tailwind CSS, React Query, Zustand, Laravel 11 API, MySQL 8, Redis, Meilisearch. Role: Frontend Team Lead. github.com/hadi-chebbo/Guidely

SmartCart – AI-Based Shopping Assistant | Personal project 2026

- Full-stack app that generates priced shopping lists from a sentence, understands natural-language product searches (e.g. "healthy snacks under $5"), recommends products and streams live price updates.
- Stack: React, Bootstrap, Node.js, Express.js, MongoDB, OpenAI API, JWT authentication, Server-Sent Events. github.com/jad-obeidd/smartcart

AI-Powered Sentiment Analyzer | Personal project 2026

- NLP web app that classifies text as positive, neutral or negative with a DistilBERT model, with history, filters and statistics.
- Stack: Svelte, Python, Flask, SQLite, Hugging Face Transformers (DistilBERT). github.com/jad-obeidd/sentiment-analyzer

SkillForge AI – Personalized Learning Paths | Kanz AI Training Hackathon Jul 2026

- AI-powered web app that turns study materials into summaries, flashcards, quizzes and personalized study roadmaps.
- Stack: React, TypeScript, Vite, Tailwind CSS. try.ka.nz/ai/jadobeid

VoteVision – Online Voting System | Personal project 2025

- Secure e-voting platform for polls and candidate-based elections, with live results charts, shareable poll links, an admin dashboard and session/IP-based duplicate-vote prevention.
- Stack: PHP, MySQL, JavaScript, Bootstrap, Chart.js, AJAX. github.com/jad-obeidd/VoteVision

EDUCATION

Master of Science in Computer Science | Lebanese International University (LIU) | Tripoli, Lebanon Oct 2025 – Present

Bachelor of Science in Computer Science | Lebanese International University (LIU) | Tripoli, Lebanon 2022 – 2025

CERTIFICATIONS & ACHIEVEMENTS

- **Guinness World Records™** record holder – most participants in an AI video lesson (14,075 participants), with Kanz and the Saudi Ministry of Human Resources and Social Development (Jul 2026)
- **Certificate of Completion** – TechTalks Internship Program, Frontend Development (May 2026)
- **Elements of AI for Business** – MinnaLearn (Nov 2025)
- **CCNAv7: Introduction to Networks; Switching, Routing and Wireless Essentials** – Cisco Networking Academy (2024)
- **Emergency response training:** Emergency Medical Technician Assistant, Assistant Mountain Rescuer, Civilian Lifeguard Assistant, Firefighter Assistant
